Welcome.....

...and thank you for considering O'Shea Lumber

as your source for high quality mouldings, flooring and S4S. In this catalog you will find our ever expanding selection of standard profiles. If your job requires a custom profile, we can take your CAD file, wood sample or drawing and produce tooling for your custom profile in house. Our state of the industry Weinig Powermat 1000 moulder, with 12000 rpm spindle speeds, will produce a finish that requires little or no sanding.

Weinig Powermat 1000 Moulder

Weinig 960 Grinder

So why are we different?

We pay attention to **YOUR** detail.

It begins when you place your order. We will ask questions that help us determine the best way to run your profile. We care about how your moulding will be used, which surfaces are exposed and how your moulding will be finished. We'll ask you to approve a drawing of your profile, just to make sure you're getting exactly what you want. The lumber we use for your moulding will be selected by hand to insure the best quality, color and clarity. Finally our experienced operators will continuously inspect your moulding during the production process. This is what sets O'Shea apart from the rest.

I-83 Exit 8 Glen Rock, PA

CONTENTS

Casing	A1-5
Crown	B1-4
Chair Rail	C1-3
Base	D1-4
Panel	E1-3
Corner	F1
